Instruction Guide

Using "My Lists"

 Adding items to a list from the search result screen is easy. If you log in first, they can go into one of your existing lists. Otherwise they are put into a temporary list you can save after you log in.

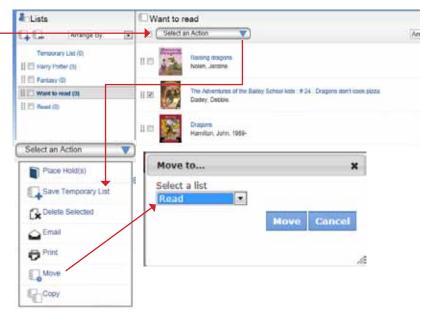

• To view: log in first, then choose My Lists

- You can easily move items between lists and save those temporary lists.
- Items in a list can be put on hold, emailed or printed (if you have a printer attached to the PC.) Make sure you check the boxes by the titles you want before taking the action.

 Holds may be placed when looking at an item in the list.
