Presents Two Shows:

1). The Music, Bubble & Comedy Show:

"The Music, Bubble and Comedy Show: Universe of Stories" is a high energy, sensory-friendly performance about why libraries rock! The show engages children with songs, comedy, bubbles, music technology and is crafted to be inclusive for all children including children on the Autism Spectrum. The show is a great time for parents, teachers and caregivers and features an original story written by the Autism Advocate and Illustrator, Tim Shaw. Each song in the 45-minute show is accompanied by hands-on, visual, and sensory experiences designed to help kids learn and have fun at the same time. Kids will dance, sing, and understand why libraries are so important for our future.

NOTE: This show is a crowd pleaser and appropriate for all ages with emphasis on younger audiences and children of all ages on the autism spectrum.

2). Space! The Cosmos for Kids:

"Space! The Cosmos for Kids" is a techno-space-dance-party for kids and teens for the summer reading theme SPACE: A UNIVERSE OF STORIES. Each song includes dancing, music technology and information about our solar system to a thumping beat. Audience members will meet aliens from outer space, talk about the different characteristics of the eight planets, sing karaoke, participate in a rap battle about the sun and learn about the differences between revolution and rotation. Each song in the 45-minute show is accompanied by hands-on, visual, and sensory experiences designed to help kids learn and have fun at the same time. This performance borrows ideas from Carl Sagan, Ann Druyan and Neil DeGrasse Tyson to make an incredible summer reading party!

NOTE: This show can aptly be described as a Carl Sagan Dance Party that includes heavy use of projected content and STEM content.
